Skills

HTML, CSS, SCSS, JavaScript, jQuery, React, Redux, Material-UI, Node.js, Express.js, Postgres, SQL, AWS S3, Ruby, Sinatra, Passport, MongoDB, Bootstrap, MongoDB, Auth0

Experience

JANUARY 2019 - PRESENT

Prime Digital Academy – *Software Development Student*

- Solo Project: Sole Check (<https://github.com/marinadell/sole-check>)
 - This app was created for sneakerhead to be able to catalog their shoes and update when they wore the shoe.
 - On this app the user has the ability to upload new shoes, view all their shoes, update the date it was worn and delete the shoe if removed from their collection.
 - Node, Express, React, Redux, React-redux, Redux-logger, Redux-saga, react-router-dom, Postgresql, AWS S3, Moment.js, Material UI, Sweet Alert, Passport
- Group Project: Minneapolis Public Schools Community Education (<https://github.com/marinadell/minnePlan>)
 - Our client, currently schedules classes for community education at Minneapolis public schools. This process was very tedious, with countless emails between the coordinator and instructors for each class and many spreadsheets to keep track of information.
 - On a team of 4 people we built MinnePlan to centralize a lot of the communication and spreadsheets. I personally worked as an architect for the project and contributed everywhere necessary.
 - Node, Express, React, Redux, React-redux, Redux-logger, Redux-saga, react-router-dom, Postgresql, Moment.js, Semantic-UI, Sweet Alert, Passport, NodeMailer, Auth0, and DotENV

JANUARY 2019 - JUNE 2019
